

In 2022, 128 women sheltering at The Sophia Way found a place to call home! We are grateful for your compassion, kindness, and generosity that provided the resources to help each of these women navigate to stability. You help us meet clients where they are, and address their barriers so they can thrive. As a case manager shared: *"I tell clients -- don't give up; persist, and you'll meet success."*

With a dedicated and compassionate community, we will continue to provide the resources and all the supports women need.

With gratitude,

Dietra Clayton, Managing Executive Director

*Thank you for respecting and treating us with dignity.
Few are willing to give so much of themselves and
I appreciate the whole team and the community!*
— Tracy
